Project No. 13739-002

Notice of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 447897), the Office of Energy Projects has reviewed the application for an original license for the proposed 5.25-megawatt (MW) Braddock Locks and Dam Hydroelectric Project, which would be located on the U.S. Army Corps of Engineers' Braddock Locks and Dam facility on the Monongahela River in the Borough of West Mifflin and the City of Duquesne, Allegheny County, Pennsylvania. Commission staff prepared a final Environmental Assessment (EA) which analyzes the potential environmental effects of construction and operation of the project and concludes that issuing a license for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link.
